What Graduates Had to Say...

"The tools learned during this program have completely changed my life. I leave meetings feeling satisfied and empowered. Instead of taking things personally, I take them "powerfully." I also learned to speak up. I have a valuable point of view and it is important to share. Over the past months I've seen this change in myself and it's amazing how others around me have seen it too, like my boss and co-workers.

-Sarah Baldwin, Senior Analyst

"I am more self-aware, have more self-respect and more self-confidence. I am more present when I interact with others. There is more flow and life is easier! I am happier both during and outside of work!"

-Els Bleus, Head of Products & Systems

What Graduates Had to Say...

"My professional life looks different after the program.

During these 12 weeks, I've been able to utilize tools to empower myself to be more confident. I communicate with more focus on my growth and development, as well as others. I've been recognized by others on the improvement in my response to different situations and how I'm able to change the narrative to achieve a specific outcome."

-Brianne Bass, Health & Safety Leader

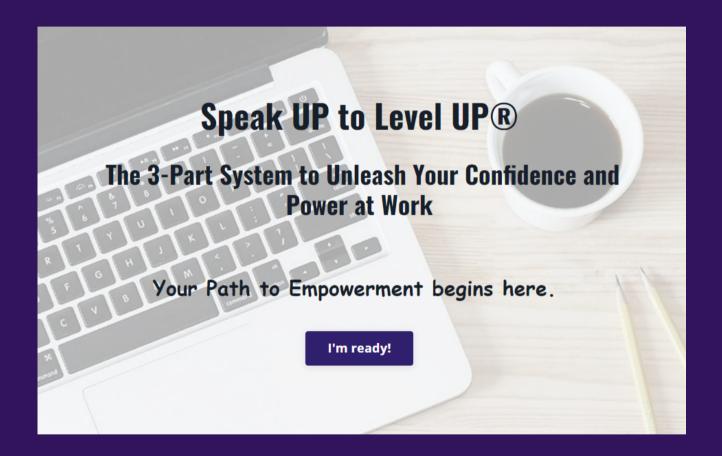

"I loved how the actions for impact fit into my daily work. There was not extra "busy work" or just paper exercises, but rather small tweaks/adjustments that I could make in my routine work that made a big impact. I also loved the camaraderie among our cohort. Being able to talk to other women that are experiencing the same thing that I am was fantastic! I'm excited that my cohort group will continue to meet after the program is over!"

-Katlyn Tolliver, EHS Specialist

ABOUT YOUR COACH AND FACILITATOR

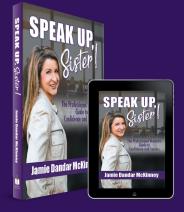

Jamie Dandar McKinney, MBA, is a certified coach and the best-selling author of *Speak Up, Sister! The Professional Woman's Guide to Confidence and Success.*

Recognized as a Top Woman in Energy, Jamie jokes that her stilettos have steel toes.

Differentiator: This is the only program of its kind built for women by a woman who spent 20+ years working in heavily male-dominated industries. Using psychology and neuroscience-based research, participants don't just listen and reflect, but rather take action and push beyond comfort zones. The support and encouragement of fellow cohort members and a dedicated coach is world class.
